

BRING YOUR OWN  
**ECO-FRIENDLY**  
ELECTRICAL POWER TO TRADESHOWS

ShowBattery is long-lasting and powerful enough to light your entire booth using LED lights. We put the power in your hands, saving on the high cost of tradeshow power rental and allowing you the flexibility to put the power wherever you need.

**NO MORE HIGH-COST POWER RENTALS!**

- Powerful enough to light your entire booth
- Small enough to fit in an island display
- Lower or completely eliminate your electrical power rental costs.
- No need for expensive under-carpet outlets or sub-floor.

**QUICK AND EASY INSTALLATION**

- Lightweight and compact for easy transportation
- Flexible enough to run where wiring can't go
- No more waiting for power installation
- No more ordering deadlines or rate increases

**CUSTOMIZABLE FOR ANY LED LIGHTS**

- Access to in-house technical expertise
- Work with you to find the best solution for your needs
- Custom adaptors available to fit your existing LED lights
- Options to combine portable power & in-house lighting for complete 360 solution.

## TWO TIME WINNER **BUYER'S CHOICE AWARD**

ShowBattery is proud to be the recipient of the Buyer's Choice Innovator Award at Exhibitor 2014 and 2015 in Las Vegas.

“ The units worked really well. They provided us with a very user friendly form of remote power which allowed us to illuminate our way finding lightbox without the need for hard wired power or a noisy generator. For our application your battery pack power unit was a perfect solution.

**Steve Lukacko, Kubik**

“ Thanks Showbattery, the pack saved my client on the expense of having to rent an outlet for the LED lighting in there island display as well as paying for the under carpet electrical cord installation. What an amazing concept, we now have an option when it comes to fighting the high cost of electrical rental power. WE will use Showbattery again.
